

Early Mustang Sportsman® Cell with standard style fill plate. Pictured with optional sending unit Part No. SA112B

Early Mustang Pro Cell® with remote fill plate Part No. SA111A-R

**EARLY MODEL MUSTANG RACING FUEL CELLS**

Enhance the safety and performance of your classic mustang by adding a Fuel Safe Racing Cell. Early model Mustang cells (1964½ - 1970) are available in 16 and 22 gallon sizes with three bladder options: The Pro Cell® bladder is extremely durable and is the best bladder for E-85 fuel, while the Sportsman® has the lightest weight. Both bladders are for use with all hydrocarbon fuels and are FIA-FT3 certified. Enduro® Cells are the most economical options while compatible with gas and ethanol fuels. These fuel cells come fully assembled with the following components:

- FIA-FT3 certified Pro Cell®, Sportsman® or Enduro® bladders
- Tig welded aluminum container
- Full safety foam baffling
- SF6X10A fill plate with -8 vent, provision for -8 return with threaded billet aluminum fill cap.
- -8 Fuel outlet (in factory location)
- Aircraft grade aluminum (not plastic) nut-ring, and all assembly hardware
- 5 year warranty
- **Now available in Enduro Cell**

See the parts pages for a complete listing of all available accessories.

**REPLACEMENT BLADDERS**

Pro Cell® bladder. Includes replacement parts Part No. RBSA111B

Sportsman® bladder. Includes replacement parts Part No. RBSA112B

**Early Mustang Complete Fuel Cells**
